

6/21 MTC Ped

- ① Present: Jason, Sean, Rochelle, Adriam (MTC Intern) Beth, Ana ② April mtg. summary
Regional Ped Planning Needs
- ③ Jason gave background on origins of MTC Ped Plan and stated that today's discussion will be to layout the rationale & case for such a plan! The entire process is broken up into six topics, to be discussed at each of ~~the next~~ meetings over the next year. Sean added that this process will be featured ~~Plan~~ at a session at the Walk/Bike conf. this fall. Dates 9/11-14 in Davis. There was then an impromptu discussion about the value & content of the conference. Jason suggested we put the conference on

Beth

Presentation & Discussion: What ~~we~~ do. What are the key parts other regional & state plans tell us; what are the common elements? See handouts: Overview of Regional & State Pedestrian Plans; Pedestrian Plan 2000 Maricopa (Arizona) Association of Governments. Discussion: possibility of research and demonstration projects in one or more types of pedestrian facilities; e.g. mid-block crossings, turn radius/bulb-outs. This might fit well with MTC's role in

providing incentives to local govt.

Discussion; Themes; what inventory of what other regional plans have included;
potentially approach from land use side
Link to ABAG/MTC Focusing Our Vision

Jason / Rochelle: Overarching regional issues.

(Chart; & attach)

- Ped connections to regional transit; examples
~~Comments~~ • Ped. mitigation @ regional roadways:
Intervene at level of CMA mandate
- CEQA
- Cross-county projects, trails, bridges etc.. Added to this category; coordination between transit agencies across jurisdiction.

Rochelle: Regionally Signif. Policies

The group ~~has~~ identified policy benefits encompassed in the chart below. Attach chart:

~~Table~~
Regional Transportation Plan - Seom

Update for 2009: now called Transp. 2035
Starting with goals + policies, scaling out to CMAs: Schedule: Seom - please ~~attach~~ include attachments

Discussion

TALC

③ Info-Sharing

Seam - 3rd Bike/Ped Workshop held recently in San Mateo. Location for #4 yet to be selected; perhaps Vallejo, Fairfield, central Bay Area (SF, Oakland). Beth recommended presenters from Seattle & Portland.

Registration for Walk/Bike Conf. still open, and relatively inexpensive, as well as good.

TETAP applications due 8/10

Nancy

SHSP meeting

Nancy

distributed Planning Communities:
What Health Has To Do With It
will notify Seam when it is
available electronically

Ana

Asked for more information
about formal notification related
to recent SR2S awards. Seam will
follow up.
